

## Report Description

TITLE: Industrial Load by Sector Report

CONFIDENTIALITY: Public

PURPOSE: This report lists load consumption by sector in the IESO-administered markets based on a general application of the North American Industry Classification System (NAICS).

FREQUENCY: Monthly

UNIT MEASUREMENT: MWh

**NOTES:**

This report is for general information purposes. Loads are assigned a NAICS category by the IESO based on the general nature of the market participant's business. It does not consider all types of activities at the site or facility.

Sector	Data Description
Iron & Steel Mills & Ferro-Alloy Manufacturing	NAICS code 3311.
Metal Ore Mining	NAICS code 2122.
Motor Vehicle Manufacturing	NAICS code 3361.
Petroleum & Coal Products Manufacturing	NAICS code 3241.
Pulp, Paper & Paperboard Mills	NAICS code 3221.
Other Industrial Consumers	This category includes loads categorized under various other NAICS sectors, and excludes the categories itemized in this report (e.g., Metal Ore Mining; Manufacturing; Electric Power Generation, Transmission and Distribution without LDCs; LDCs etc.).
Manufacturing	This sector includes NAICS codes 31XX through 33XX series and excludes other manufacturing sectors itemized in this report (e.g., Iron & Steel Mills & Ferro-Alloy Manufacturing; Motor Vehicle Manufacturing etc.).
Electric Power Generation, Transmission and Distribution w/o LDC	This sector includes NAICS codes 22111 and 22112, and excludes LDCs.
Local Distribution Company (LDC)	NAICS code 22112, defined as an LDC. Non-market participant LDCs are excluded from this report.
Directly Connected Load	Represents market participant transmission-connected loads. This column is not a summation of all the sector categories in this report.
